aph to The Times. York, March 23.—Governments: 4s and 4½s being ½ higher; 3s, and Pacific 6s of 1895 restored to manipulation was kept up till late in the aftersoon. Pacific Mail led the list both in activity and advance in quotations, and its price moved persistently upward without any regard to the rest of the market from near the opening, when it sold at 47% closing at 62%, the highest price of the day and a gain of 4% per cent. compared with the closing price of Saturday. A report was started in the morning that the Union Pacific had decided to withdraw its notice discontinuing a subsidy to Pacific Mail. As the executive officers of the Union Pacific are in Boston no speedy denial could be obtained, and although the Pacific Mail officials frankly stated they had received no such intimation, and ulation was kept up till late in the on. Pacific Mail led the list both had received no such intimation, and turther made the statement that they would consider such a proposition, if made, the report found many believers, when denied by telegraph from Boston, substantially the same statement in a

made, the report found many believers. When denied by telegraph from Boston, substantially the same statement in a modified form was started, and the ball was thus kept rolling until the close of the Board. This evening the Pacific Mail officials say they have not yet-received any communication in regard to the matter from the Union Pacific Company. The total for Pacific Mail is 96,606 shares, or over 20 per cent. of the business of all stocks. Among weak stocks was St. Paul. Among other very active stocks on the list was Union Pacific, which showed a gain of 2 per cent. The total sales of Pacific and Thion Pacific, St. Paul and Northwestern amounted to 25,770 shares, leaving fees than 110,000 shares for the remainder of the list. Western Union is very quiet, making a gain, however, of 3 per cent. The presidents of Trunk lines had a meeting at Com. Fink's office this afternoon for the purpose of considering the present connections, the result of which was not known before closing the Stock Exchange. Central Pacific and Union Pacific, 31% at 31%; Northern Pacific Ipreferred, down 40% at 40%.
